RESPONSE

Honorable Commissioner of Patents and Trademarks  
Washington, D.C. 20231

Sir:

Applicant provides the following Response to the Official  
Action of 30 July 2002 regarding the above-identified patent  
application:

Remarks

Claims 1-22 are pending in the present application. In the  
Examiner's Office Action, the Examiner asserts *without support* that  
controlling the amplitude/phase offset variations would include the  
calculation of variance, Applicant respectfully requests that a  
reference be made of record under MPEP 706.02(a) supporting that  
assertion so that Applicant may fully respond.
